

CLAIMS

I claim:

1. A disposable cover for an oil filter; said filter including a canister for containing oil, said canister having a flow hole with a seal surrounding the flow hole; said cover comprising a cover plate and a clamp device; said cover plate for overlying said flow hole in engagement against said seal, said clamp device extending through said cover plate for engagement with said canister to compress the cover plate against said seal.
2. The disposable cover of claim 1 wherein said clamp device includes a threaded bolt and a threaded nut; said nut turned onto said bolt; said bolt including a flexible head larger than said flow hole and being forced fittable through the flow hole into said canister; said cover plate having a hole; said bolt protruding through said hole in said cover plate with said cover plate located between said nut and said head.
3. The disposable cover of claim 2 wherein said bolt is made of molded plastic.
